

Dear CUCINA VENTI Patrons,

We are writing to communicate the steps CUCINA VENTI has taken, and will continue to take, to avoid risk at the restaurant. Please know that we approach each day with an abundance of caution. The well-being of our guests and team has always been paramount. Therefore, we continue to hold health standards and sanitation codes in the highest regard.

- *Dining room tables have been removed to allow for more space between guests
- *Cleanliness and hygiene practices are reviewed with the team before, during, and after shift
- *Designated team members are sanitizing surfaces after every use around the clock
- *Written reminders of these practices are posted in all staff-only areas
- *Hand sanitizer with >70% alcohol content has been placed throughout the space
- *Any employee feeling under the weather is asked to stay home

We are grateful for your support, and look forward to continuing to host you in a conscientious, mindful, and educated manner.

With gratitude,
Cucina Venti Management
